

## Your book group can give the gift of reading!

Imagine an 8-year-old, sitting in a classroom, unable to read. She can't keep up and needs help. Third grade is a 'pivot year' in a child's education – the point at which the classroom focus changes from "learning to read" to "reading to learn."

**Children living in poverty who aren't reading at grade level by the end of third grade are thirteen times less likely to graduate high school than their wealthier peers.**

Our community is coming together to solve this issue and Reading Results is a leader in the effort. Working toward the vision that all children have the right to read and succeed, Reading Results partners with schools serving low-income students to provide a proven reading intervention program. Our program is intensive and it gets results – on average, students in our program gain 1.5 years of reading skills over the course of a single school year.

Now your book group can join the effort and give the gift of reading through sponsoring a student.
